LIMITED Special Agent for FAIRCHILD'S PEPTONISING POWDERS. ONE of them will impact to a pint of cows' milk, in a few minutes, all the

characteristic and desirable properties of mothers' milk. Cows' milk prepared according to directions with Peptonising Powders furnishes the only natural and perfect substitute for breast milk: it resembles it precisely in colour, taste, odour, slight alkalinity, and in the character and quantity of that vital constituent-casein. Pentonised milk is retained by the

weakest and most delicate patients. When the lining membrane of the stomach is in a condition of constant irritation and disease, the bland, soothing properties of peptonised milk causes it to be retained, and not only prove curative to the stomach, but nutritious to the patient. A poor worrisome, sickly, wasting child will take it, and often fall at once into a peaceful refreshing sleep. It saves from the well-known dangers of feeding typhoid patients on cows' milk. It is the sick man's vital food. Cows' milk that has been peptonised with the Fairchild Peptonising Powders cannot be curdled as formerly, is free from all irritating properties of every kind, and as

bland, nutritious, and perfectly assimilable as mothers' milk. It agrees with the weakest infants and invalids. In boxes containing 12 powders in glass tubes with directions. COMPOUND ZYMINE TABLOIDS

(FAILCHILD). FOR INTESTINAL INDIGESTION. PEPSIN TABLOITS (FAIRCHILD). For deficiency of digestive power.

His Worship informed the prisonor that he was not being sentenced for cutting and wounding, a crime which would have deserved very heavy punishment, but for having on another octasion threatened the complainant that if he continued to use a sewing machine he (defendant) would 'do for him.' The complainant, while in hospital, identified the defendant as the man who assaulted him, but afterwards, in Court, awore that his assailant was another man, who had not been arrested. The original charge of cutting and Price, \$1 per wounding having thus fallen through, Mr Wodehouse found the charge of intimidation proved and sentenced the prisoner to

The Admiralty have determined to replace all the slow, second-class gunboats on the China Station at the conclusion of their present commissions by new first-class gun bonts of the Pheasant and Redbreast type which are larger, of greater speed, and of more powerful armament: On the 21st Sept. the new composite gun vessel Pigmy, 6, 755 tons, 1,200 horse power, Lieutenaut-Commander George H. Hewett, was deapatched from Shearness for China to relieve the Espoir, 4, 465 tone, 470-horse

power, which has just completed her second term of service on the China Station: The Plover, 6, gunboat, Lieutenant-Commander E. G. Rason, was moved out of harbour into Plymouth Sound on the 21st Sept., and embarked her ammunition. and was also swung for the adjustment of her compasses. She left on the 22nd for the

China Station. The Sapphire, 12, third-class cruiser, 1,979 tons, 2,360-horse power, Captain Wollaston C. Karslake, was paid out of commission at Sheerness on the 25th Sept... on her return from the China Station. where she recently completed her fourth term of foreign service. The Sapphire was placed in the Third Division of the Medway Steam Reserve, and her crew granted aix weeks' leave of absence. The Sapphire was the last wooden criser, or corvettes as they were formerly called, built at Devonport Dockyard before the introduction of composite shipbuilding, and she is the only representative of her type that now figures on the list of effective ships.
